

Experience

Software Engineer

Kolkata, India

Webskitters Technology Solutions

Aug 2025 – Present

- Developed scalable web applications using Angular, Next.js, React, TypeScript, Spring Boot, and Node.js for ERP, eCommerce, and SaaS platforms.
- Designed reusable UI components, integrated REST APIs, optimized application performance, and delivered business-critical features across customer-facing and admin applications.
- Collaborated with cross-functional teams in an Agile environment, participating in feature planning, code reviews, testing, and production deployments.

Junior Software Developer

Utah, USA (Remote)

Utah Tech Labs

Aug 2023 – Jul 2025

- Built and maintained React and Next.js applications for logistics and AI products, delivering responsive user interfaces and reusable component libraries.
- Improved application performance through code splitting, lazy loading, bundle optimization, and close collaboration with backend engineers and designers.

Data Engineer Intern

May 2023 – Jul 2023

Celebal Technologies (Certificate [🔗](#))

- Worked with SQL-based ETL pipelines, data transformation, and reporting workflows on enterprise datasets.

Software Engineering Intern

Mar 2023 – Apr 2023

Persistent Systems (Certificate [🔗](#))

- Gained practical experience with software development best practices, Git workflows, debugging, and collaborative enterprise development.

Skills

- Languages:** Java, JavaScript, TypeScript, SQL, C++
- Frontend:** Angular, React, Next.js, Redux Toolkit, Zustand, TanStack Query, React Hook Form, Tailwind CSS, shaden/ui, Radix UI
- Backend:** Spring Boot, Spring MVC, Spring AI, Spring Data JPA, Hibernate, Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, WebSockets (Socket.io), Redis, Kafka
- Databases:** PostgreSQL, MongoDB, MySQL
- Cloud & DevOps:** AWS (EC2, S3, Lambda, ECS), Docker, Kubernetes, Git, GitHub Actions, CI/CD
- Concepts:** Microservices, System Design

Projects

TicketWhiz - Ticket Marketplace & Affiliate Management Platform [🔗](#)

Apr 2026 – Present

- Ticket marketplace platform consisting of a customer-facing website and an internal admin portal for affiliate management, venue operations, analytics, and business workflows.
- Owned the complete admin panel development and redesigned the interactive venue seating experience by replacing third-party seatics maps with a custom SVG-based rendering engine supporting dynamic stadium and venue layouts.
- Improved map rendering performance and maintainability while building scalable admin modules and integrating backend services. **Tech:** Next.js 15, Angular, TypeScript, Spring Boot, PostgreSQL, AWS EC2, Docker, PostHog, Sentry, Google Analytics, Microsoft Clarity, GTM.

Qaira - Enterprise Survey & Analytics Platform [🔗](#)

Jan 2026 – Present

- Enterprise survey platform supporting 60+ question types, AI-assisted survey creation, quota management, voice/video screening, and real-time analytics.
- Led development of the survey builder, template management system, and respondent-facing survey runtime with advanced conditional logic and dynamic form workflows.
- Implemented skip logic, piping, randomization, validation, and respondent routing while improving page load performance by **35%**.

Tech: Next.js 15, React, TypeScript, Zustand, TanStack Query, React Hook Form, Express.js, MongoDB, PostgreSQL, AWS.

Rasha Professional — ERP & eCommerce Platform [🔗](#)

Sep 2025 – Mar 2026

- ERP and eCommerce platform for managing products, inventory, orders, resellers, payments, content management, and customer shopping experiences.
- Developed features for both the customer-facing Next.js application and the Angular-based admin portal, delivering CMS tools, RBAC modules, order management, catalog management, and PayPal/Affirm payment integrations.
- Improved application performance by reducing JavaScript bundle size by **20%**, lowering LCP by **42%** and FCP by **38%** through code splitting, lazy loading, dynamic imports, image optimization, and reusable component architecture.

Tech: Next.js 15, Angular, TypeScript, Spring Boot, PostgreSQL, AWS, Docker, PayPal, Affirm.

Education

B.Tech in Computer Science and Engineering

Nov 2020 – Jun 2024

Techno International Newtown CGPA: **8.75 / 10**
